

Hope in God's Message

Luke 2:8-20

Sometimes we yearn for great and startling evidences of God's presence. We think, "if only something great would happen to me!" How much we have to learn. For the greatest miracle of all, God's greatest work was done in quietness and in the simplicity of a daily life with common people involved. A look at the stable reminds us that God does great things in stillness and obscurity. Although a baby had been born in a usual way the message and purpose of His birth revealed something life-changing.
